

Terapia Cognitiva Post-razionalista

Un itinerario di formazione e ricerca deve svilupparsi lungo una traiettoria singolare che tocca i metodi della psicologia, psichiatria e della psicoterapia, e percorrere i sentieri delle scienze naturali fino a giungere al tema del significato e dell'interpretazione dell'esperienza personale.

Un itinerario di formazione e ricerca deve svilupparsi lungo una traiettoria singolare che tocca i metodi della psicologia, psichiatria e della psicoterapia, e percorrere i sentieri delle scienze naturali fino a giungere al tema del significato e dell'interpretazione dell'esperienza personale.
